Dear Sir/Madam

N6 Galway City Ring Road

We write to object to and make observation on aspects of the proposed N6 Galway City Ring Road as submitted to An Bórd Pleanála in October.

We object to the proposed compulsory acquisition of the roadway (noted as AR 07/10) through The Heath, Circular Road to provide access to a small piece of agricultural land which will be cut off by the route of the proposed N6 Galway City Ring Road. The narrowness and winding nature of the roadway make it very unsuitable for access to this and adjoining property. We believe that the owner of this small piece of land should be compensated by the relevant authority for its loss. Failing that, more appropriate access using wider, properly serviced roadway is available nearby, causing less inconvenience to fewer property owners.

We note that no detail is provided on any proposed noise mitigation for residents of The Heath both during the construction phase and when the N6 Galway City Ring Road is operational – particularly given the size of the proposed Letteragh Junction.

We reserve the right to raise further matters at the Oral Hearing should such issues emerge during our further investigations.

Please find enclosed a cheque in the amount of €50 in settlement of our fee.

David Hickey
