Re: Nb GCRR, an objection on principle,
 not on technical grounds.

To whom it concerns;

In my home place (not yet the Northern
 Linn road) this development will transform
 a peaceful, beautiful lacework of homes,
 farmland & commonage into a spaghetti-
 junction. This may (wrongly) be regarded
 as necessary for the public good, so I confine
 my objection in particular to the part of the
 development which crosses the River Corrib.

The environs of Menlo village and castle
 on one side, and Dangan shipway & M.H.G.
 sports grounds on the other, are an
 irreplaceable asset to large numbers of people
 as they are, even without the economic-
 touristic-ecological arguments for not
 destroying them. These arguments will be
 put by more qualified people than me;
 all I can do here is record my
 objection to this short-sighted and
 destructive scheme.

Sincerely,
 Joseph Hynes

Cheque No [REDACTED] €50 enclosed.
