Re: Adare Bypass – An Bord Pleanala Ref 306199
Planning Authority – Limerick City and County Council
Category LAP SID -CPO

Dear Sirs,

I am a homeowner resident at Islandea, Adare, Co. Limerick registered in Folio LK65602F. The proposed new Limerick Cork Motorway incorporating the Adare bypass will be on lands adjacent to my dwelling house and will result in the motorway being located very close to same which will result in significant decreased enjoyment by me and my family of our property from motorway traffic noise.

I object to the current planning application as I have no details of provisions made to consider the impact this will have on my property. The excess noise during the construction phase and from the traffic once completed will result in increased noise and air pollution. I would like this issue to be addressed in full by mitigating these issues by way of tree planting and noise barriers in any planning decision.

I would appreciate a meeting to discuss in greater details the provisions to be put in place in advance of the construction.

I enclose payment of €50 being your fee herein.

Yours faithfully,

R. Frost
