Re: Bus Connects Templeogue/Rathfarnham to City Centre Core Bus Corridor Scheme
Templeogue/Rathfarnham to City Centre

Dear Sir / Madam,

An Bord Pleanála has received your recent submission in relation to the above-mentioned proposed road development and will take it into consideration in its determination of the matter. Please accept this letter as a receipt for the fee of €50 that you have paid.

Please note that the proposed road development shall not be carried out unless the Board has approved it or approved it with modifications.

The Board has also received an application for confirmation of a compulsory purchase order which relates to this proposed road development. The Board has absolute discretion to hold an oral hearing in respect of any application before it, in accordance with section 218 of the Planning and Development Act 2000, as amended. Accordingly, the Board will inform you in due course on this matter. The Board shall also make a decision on both applications at the same time.

If you have any queries in relation to this matter please contact the undersigned officer of the Board.

Please quote the above-mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Eimear Reilly
Executive Officer

To whom it may concerns

We are writing to you regarding the Templeogue/Rathfarnham to City Centre Core Bus Corridor Scheme. We attended an information evening on the bus corridor and related road and traffic changes.

Details of the scheme and the implications for the towns in our area and how they would be affected, was hosted by a number of councillors.

We have significant concerns about the traffic impact on roads in our area. In closing Rathgar Road to two-way traffic and allowing cars turn into Highfield Road from the Upper Rathmines Road, it will create heavily congested traffic on Highfield Road which is the case already. This is a residential road that is set to receive increased bus traffic and new bus stops under the proposal.

Approx 10,000 cars currently use Rathgar Road daily when coming out of town. With the closure of Rathgar Road outbound from town and allowing for some reduction of car usage due to the bus corridor, there could be up to 10,000 cars daily looking to exit town via Highfield Road. The challenge posed by the outbound road closure in Rathgar Road was highlighted by a late modification to the NTA scheme. The proposed modification to the Highfield Road/Rathmines Road Upper junction will allow cars turn right on Highfield Road.

We are worried on a number of levels but mainly for the safety of the pedestrians & Cyclists. Our Road is narrow and despite it being turned into a bus corridor, there are no plans to introduce a bicycle path. The new proposed road layout will significantly increase the number of cars on the road at peak times. It is a pleasure to see so many cyclists on Highfield Road on a daily basis. It is a positive development and a sign of people's commitment to a greener way of living. We should protect and encourage such behaviour.

The introduction of a two-way bus corridor with multiple bus stops on a narrow road is not encouraging or protecting our cyclists, it does the opposite. To now have the prospect of significantly more cars on the road poses enhances further accidents and possibly deaths on this residential road.

We understand the need to reduce the number of cars on the road but equally understand that this needs to be done in a safe and respectful way. We would appeal to An Bord Pleanála to leave Rathgar Road open to two-way traffic and failing that to retain the current road restrictions preventing cars turning from the Upper Rathmines Road onto Highfield Road.

Yours Sincerely,

Ciaran Mulligan & Bryan Mc Cormack

Residents 69 Highfield Road
