Re: Bus Connects Kimmage to City Centre core bus corridor scheme
Kimmage, Dublin

Dear Sir / Madam,

An Bord Pleanála has received your recent submission in relation to the above-mentioned proposed road development and will take it into consideration in its determination of the matter. Please accept this letter as a receipt for the fee of €50 that you have paid.

Please note that the proposed road development shall not be carried out unless the Board has approved it or approved it with modifications.

The Board has also received an application for confirmation of a compulsory purchase order which relates to this proposed road development. The Board has absolute discretion to hold an oral hearing in respect of any application before it, in accordance with section 218 of the Planning and Development Act 2000, as amended. Accordingly, the Board will inform you in due course on this matter. The Board shall also make a decision on both applications at the same time.

If you have any queries in relation to this matter please contact the undersigned officer of the Board at laps@pleanala.ie

Please quote the above-mentioned An Bord Pleanála reference number in any correspondence or telephone contact with the Board.

Yours faithfully,

Eimear Reilly
Executive Officer

Re Kimmage corridor 317660

Dear Sirs

We are an environmental organization formed to support sustainable development in Terenure, Templeogue and surrounding areas. Please find attached our observation in the form of a letter signed by numerous residents of the area, expressing serious reservations about the development.

For Terenure and Templeogue Sustainable Community Association CLG

Director

AN BORD PLEANÁLA	
LDG- <u>068427-23</u>	
ABP- _____	
05 DEC 2023	
Fee: € <u>50</u>	Type: <u>cheque</u>
Time: <u>12:49</u>	By: <u>Hand</u>

The undesigned residents live in streets represented by College and Wainsfort Residents Association and Terenure West Residents Association. This area includes Greenlea, Lavarna, Parkmore, College and Wainsfort estates and part of Fortfield Road. We have serious reservations about the proposed Kimmage corridor principally the following:

1. We are very unhappy at the grossly inadequate public consultation process. The process has been confusing, and we believe orchestrated to limit the general public's participation, especially during the COVID-19 crisis.
2. The Kimmage corridor is the main artery and feasible route from the south west of the city to access the north side of the city. Access needs to be maintained for all users.
3. We request that none of the three bus gates proposed for this corridor are permitted. Without prejudice to this request, we believe that the only permission that should be considered at all is for the bus gate close to Mount Jerome Cemetery to operate inbound 6am to 9.30am Monday to Friday.
4. If the bus gates are implemented, particularly the one at Ravensdale Park, this will result in increased traffic and congestion on Fortfield Road, Terenure Rd. West and Wainsfort Road. Further, the combined effect of the measures of this corridor and of Templeogue Rathfarnham corridor force traffic into all our residential side roads, in particular, College Drive, Wainsfort Park, Wainsfort Grove, Greenlea Road and Lavarna Grove. Diverted traffic most likely will include HGVs. We have requested but have not received access to the results of combined modelling of the effects of the 3 corridors on the roads in the area.
5. Local population access needs across all age groups has not been afforded due consideration. Bus gates will make access to all facilities in Kimmage complicated; schools, medical facilities, hospitals, religious and important essential shops. In many cases it is not possible to switch to an alternative mode of transport to access these services. We believe any bus gate should stop at 9.30am to facilitate religious services at Mount Argus and funerals at Mount Jerome.
6. We welcome the inclusion of the direct cycle lane
7. We welcome the three combined F services at the start of the corridor. However, we think these will all be severely delayed by congestion before they enter the corridor. Further, these services are planned to run on a very circular route from St Patrick's Cathedral, rather than the current very direct 54A route. We do not understand why they made this change without prior consultation with the commuters on the route. The combination of the above will cancel out the very modest time savings.
8. We believe that the current road structure with a dedicated right turn at Emmet Bridge Harolds X and SCR junction should be maintained. The new proposal will make turning right at the SCR junction very difficult and traffic turning left and proceeding straight to New St. will be stacked behind traffic wishing to turn right.
9. We have environmental and safety concerns arising from the combined effects of the level of traffic which will be redirected into the area and the additional distances to local journeys for residents.
10. The information on which the proposal is based lacks transparency and the proposal does not consider the consequences if the desired modal shift is not achieved.
11. The effect of this Bus Corridor appears to have been considered in isolation. Considering the overall impact of all adjacent corridors needed to be fully taken into account.
