Shankill is currently sufficiently serviced by a number of buses. The proposed bus corridor uses the existing 145 and 155 routes. There are buses every 10 minutes and there is no delays caused by the stretch from Quinn's road Shankill to the loughlinstown roundabout. The proposed widening of the roads including removal of trees are wholly unnecessary and have not considered current real life scenarios. The proposed complete upheaval will have no benefits for this route. In addition to this the removal of the roundabout at Quinn's road and converting the corbawn lane at Lidl to one way has no benefit to the bus corridor or the area. This is wasted resources and wasted money shoe horned into the area under an umbrella project for the bus corridor upgrade. Much of that upgrade may have benefit but the proposed upgrades for Shankill have no benefit are ill considered and unnecessary. Resources and spending would be much better used elsewhere

There is also a proposal of an additional walking path and cycle track at Stonebridge road, while this could actually be advantageous the plans have not factored in the current development at Stonebridge wood, as part of this development that area is designated for a playground. The cycle track should

not take away from local amenities like playgrounds and should consider the same access of children to the playground
