N2 Slane Bypass

We, the Slane and District History Society, support the proposed N2 Slane Bypass for the following reasons:

- 1) the need to preserve the built environment of the village and immediate environs including the Boyne bridge by reducing the volume of vehicular traffic, especially heavy goods vehicles, and in turn reducing noise, vibration and emissions levels together with the risk of potential/actual damage to building structures;
- 2) to reduce the danger to human life, caused by the excess vehicular traffic flows through the village, and to increase the safety of Slane village residents, especially children and the elderly in their daily lives as a consequence;
- 3) the expected reduction in traffic will make Slane village a pleasant place to live and socialise in for its residents through the provision of the proposed Bypass;
- 4) the stimulation of commercial life in Slane village and the generation of employment opportunities as a result of reduced traffic flows;
- 5) to enable the tourism and leisure potential of Slane village and surrounding area to be fulfilled particularly in the context of the proposed Boyne Greenway

For and on behalf of

Slane and District History Society,
