Dear Sir/Madam

Thank you for your recent correspondence by post.

I am replying before today's deadline of 5.30 pm.

Please refer to my previous email regarding the environmental issue of water quality due to dumping of raw sewage. A camper on the site personally made me aware they have seen the proprietor dumping a container of raw sewage into the Bannow estuary.

I note the points made in section 8 regarding E. coli and detrimental water quality to fisheries.

Regards,
Owen Williams

Dear Sir/Madam

The applicant is obviously trying to circumnavigate the laws of Wexford planning. Thus making a joke of Wexford planning authority and enforcement order.

There is a serious environmental issue here.

Where is the large quantity of human excrement being disposed of?

Is he spreading same waste on his land?

If he is not then where else is waste going?

Regards,
Owen Williams
