		Re: Silt Control	16/4/'84

LUATEAR AN UIMHIR EAGARÉA

I attach a copy of report on the silt control meeting held at Derrygreenagh on 4th April 1984. You should submit the following information to the Chief Engineer:-

- (a) The annual number of excavator hours (specifying excavator type) spent at present on silt control at your works.
- (b) The expected annual number of excavator hours which would be required in complying with Board Policy in this regard i.e. all effluents flowing through silt traps of standard size.

General Operations Manager
