Re: **ABP Reference 305070-19 - Application for Substitute Consent for Crory Windfarm Group Grid Connections**

Applicant: **The Electricity Supply Board (ESB)**

Dear Sir/Madam,

I refer to previous correspondence in relation to An Bord Pleanála (ABP) Reference 305070-19.

- By letter dated 26th June 2019, ABP confirmed that ESB could apply for substitute consent in relation to this project.
- By letter dated 5th September 2019, ABP set an extended date of 11th March 2020 for submission of the application.
- By way of a phone call on 24th February 2020, in response to an email dated 13th February 2020 from ESB, ABP reviewed specific application details and advised as follows:
 - The wording of the draft public notices submitted by email appear to be adequate – minor amendments have been made to the submitted draft.
 - Following validation of the application, any anomaly regarding the fee will be notified to ESB – the basis for the fee calculation and a cheque for €4,200 is attached with the application.
 - Details should be uploaded to EIA portal – this has been done and confirmation is attached.
 - It is noted from the correspondence that the Board require 6 hard copies and 1 electronic copy of the application.

The application includes the following documents:

1. Cover Letter;
2. Application form;
3. Site notice as erected on site at various locations on 10th March 2020;

*Application to An Bord Pleanála for substitute consent***APPLICATION TO AN BORD PLEANÁLA FOR SUBSTITUTE
CONSENT****BEFORE FILLING OUT THIS FORM PLEASE NOTE THE
FOLLOWING**

Failure to complete this form or attach the necessary documentation, or the submission of incorrect information or omission of required information will lead to the invalidation of your application. Therefore please ensure that each section of this application form is fully completed and signed, entering n/a (not applicable) where appropriate, and that all necessary documentation is attached to the application form.

ADDITIONAL INFORMATION

It should be noted that each planning authority has its own development plan, which sets out local development policies and objectives for its own area. The authority may therefore need supplementary information (i.e. other than that required in this form) in order to determine whether the application conforms with the development plan and may request this on a supplementary application form.

Failure to supply the supplementary information will not invalidate your planning application but may delay the decision-making process or lead to a refusal of permission. Therefore applicants should contact the relevant planning authority to determine what local policies and objectives would apply to the development proposed and whether additional information is required.

OTHER STATUTORY CODES

An applicant will not be entitled solely by reason of a planning permission to carry out the development. The applicant may need other consents, depending on the type of development. For example, all new buildings, extensions and alterations to, and certain changes of use of existing buildings must comply with building regulations, which set out basic design and construction requirements. Also any works causing the deterioration or destruction of the breeding and resting places of bats, otters, natterjack toads, Kerry slugs and certain marine animals constitute a criminal offence unless covered by a derogation licence issued by the Minister for Culture, Heritage and the Gaeltacht (pursuant to Article 16 of the Habitats Directive).

DATA PROTECTION

It is the responsibility of persons or entities wishing to use any personal data on a planning application form for direct marketing purposes to be satisfied that
