Galway.

**RE Foul Sewer Connection to Bramley Sewerage System  
For Gerry and Margaret McNulty, to service converted garage at Rinville Lodge.**

---

Dear Sirs,

We wish to confirm that the McNulty family has a signed agreement in place with the Bramley Owners Management CLG to facilitate connection to the Bramley foul sewer pipeline from their property.

G & M McNulty wish to make a sewer connection to service their converted garage to replace the existing septic tank service which is being decommissioned.

We consent to the connection of a foul sewer pipe to serve the converted garage to the existing sewer manhole and gravity sewer which flows into our Bramley pumping station. We confirm that our pumping station has adequate spare capacity to cater for this proposed development by Gerry and Margaret McNulty and we fully consent to their use of same.

We confirm that the above arrangements and agreements are in place and fully agreed between the parties.
