Re: Drummans Lower, Drumkeeran, County Leitrim

Case Number: ABP-307371-20

'Whether or not the repair and improvement of a private road and the creation of a private road to access agricultural structures under construction is or is not development and is or is not exempted development'

Dear Lisa,

In response to the letter received from An Bord Pleanaola dated 6th August 2020 with reference to submissions made by Leitrim County Council on the 21st July 2020 we would like to provide additional relevant information on behalf and at the request of our clients Matt Fisher and Maria Fisher.

Please refer to Appendix A which is an excerpt taken from landdirect.ie which illustrates that there is a clear registered right of way which follows the line of the roadway in question. This 'way' has been long established and utilised by our clients and by owners and occupiers of the land for a substantial period.

To support the above please refer to Appendix B which contains the previous owners Land Registry information, dated from 1986. We would like to highlight the description contained within the schedule which describes the Right of Way between areas 'A' & 'B' and the support map information which clearly describes the ROW as a 3m wide wayleave. There has been no amendment or removal of said ROW as illustrated on the recent information contained within Appendix A.

Our client has upgraded the existing way as it had fallen into disrepair and was not fit for purpose. They have followed the line of the existing ROW, upgraded in accordance with best practice methodologies and maintained the access/ROW at 3m wide as previously described. It should be noted that our client is in possession of both barrels of

We are aware that photographic 'evidence' may have been provided by the 3rd Party, however, we are unable to comment whether this information is contemporary or even if the photographs were taken on our clients land. It should be the duty of the 3rd Party to provide evidence that is within context and with direct reference to the land upon which the siting claim is being made.

If you require any further information or original copies of folios etc. we would be more than willing to provide them if necessary, please not hesitate to contact me directly if this is the case.

Yours Sincerely,

Robert Spratt
