Re: Referral Section 5 Declaration – on whether the use of an outdoor gantry loading crane is or is not exempt development at Booths Precast Concrete Plant, Ballymullen, Ableyleix, Co. Laois.

Our Ref.: 20-056
Your Ref: Case No.ABP-309964-21

A Chara,

Further to the above and your letter from the 28th of May 2021, enclosed please find comments and observations from our client and the managing director of Booth Precast Ltd., Mr Peter Booth. addressing the document from Mr. Tom McEvoy and Michael and Mary Whelan submitted to the bord on the 13th of May 2021.

AOCA have reviewed the comments also but find them irrelevant to the matter in question. Apart from all the previously mentioned history with the complainant the development is within the parameters of Class 21 by way of it;

1. Carries out or carries on an industrial purpose
2. Is within the category of "plant or machinery"
3. Does not material alter the external appearance of the premises
4. Is less than 15m tall.

(see Appendices A for extract from the SCHEDULE 2 Article 6 PART 1 Exempted Development — General)

I trust this is acceptable but if you should need any further information please do not hesitate to contact the undersigned.

Yours faithfully,

Damien Morrissey.
MSc.(Surv),BSc.Arch.Const MCIOB
For and on behalf of **AOCA Engineering Consultants.**

*You're Case No. ABP-309964-21
Planning Authority Ref. No. 105*

Dear Sir,

I refer to your letter of the 28th may.

It is important to note that the purpose of this section 5 review is to determine, "Whether the use of an outdoor Gantry loading Crane is, OR is not development OR is or is not exempt development.

It has nothing to do with Mr McEvoy's submission which seeks the Bord to judicially determine the planning status of the facility which is in existence almost 50 years.

In practical terms the company were using a forklift to load the precast products onto trucks for delivery. It was deemed hazardous to continue loading trucks this way so the company extended the internal gantry crane out past the existing shed to safely facilitate loading of trucks.

It is important to note that this does not in any way change the output of the factory nor does it add any additional vehicular movements on the public road.

All it does is make the loading process safer and cleaner for the environment as it replaces a diesel engine with an electric apparatus.

Mr. McEvoy is well known to this Company. Since 2005 he has made all kinds of outrageous and unfounded allegations to numerous regulatory bodies such as the H.S.A., R.S.A., E.P.A., Laois Co. Council. He is very friendly with Michael & Mary Whelan who allow him to use their names and address

There are 86 pages in Mr. McEvoy's submissions, most of which I have seen in the past being re-hashed and re-dated. Having said that I will comment on some parts.

I have numerically labeled the pages in green pen for ease of reference.

Page 2 Submission of objection for planning retention by Booth Concrete. Firstly, this is not a retention application and as such, I don't know why Michael & Mary Whelan have the right to make a submission to a Section 5 Application. Note the Section 5 application was made to determine whether a gantry crane is or is not exempt Development. The installation of this gantry crane will not add 1 vehicle to the vehicles going in or out of the plant. It was installed to replace a fork truck.

- Page 4 Mr. McEvoy lists out numerous unauthorized developments, none of which are owned by Booth Concrete. Mr. McEvoy states we don't have a discharge license. He is correct as we do not discharge trade effluent off site. We have recently upgraded our water recycling system and improved its efficiency as a result. There are no unauthorized development files open relating to the company that we are aware of. From time- to- time Mr. McEvoy makes **Vexatious & spurious** complaints that are investigated by Laois Co. Council. We have a good relationship with the Council as we always try to remedy any genuine problems they bring to our attention.
- Page 5 Placing of a footpath opposite Mr. McEvoy's house was done by Laois Co. Council. Booth Concrete provided all the engineering design and drawings for a Part 8 which has greatly improved the safety.
- Page 6 Mr. McEvoy comes to a lot of conclusions that he has no qualifications to do so. He is not an Ecologist, a Hydrologist or an Archeologist?
- Page 7 I can only assume was inserted in error by Mr. McEvoy. His notes on the top of Page 7 bemoan his lack of financial reward for taking a legal case against us. His written note clearly shows his entire motivation is money.
- Page 8/9 Sheridan Quinn are found guilty of wrong doing for not declaring a payment of €46,500 from their client, not relevant to Our Section 5 Application but Page 7 really shows Mr. McEvoy's motivation is compensation for having to live near a quarry.
- Page 10 This is an internal email referring to a 2012 planning application. Laois Co. Council confirming that a site notice was erected. Just another example of Mr. McEvoy's Vexatious complaints to the local authority
- Page 11 Internal Laois Co. Council email, outlines the various permissions on the site, Mr. McEvoy doesn't accept that these Permissions are valid for some reason.
- Page 12 Grant of permission to extend working hours. Note his hand written notes "Handed to me by Garda, Re Laois Co. Council
13 no planning notice ever put up". On 12/09/2012, Garda came to the plant at around 7.15am stating we were not allowed
& 14 to open at 7am. I gave Garda copy of the permission which he obviously gave to Mr. McEvoy. This graphically shows how Mr. McEvoy conducts his business. Make a false allegation, without first checking The planning files which is easily obtained on line.
- Page 15 This is part of a settlement agreement from 2010 that the Company agreed to abide by pending planning permission which
Page 16 was granted in 2010, to retain certain activities and traffic volumes. Once granted permission the court order became Redundant.
- Page 17 All examples of complaints and harassment from Mr. McEvoy, any real issues were resolved with LCC.
,18
19
20
-
- Page 25/26 More planning complaints about manufacturing buildings that were re-roofed and a new gantry crane installed.
, 27/28 This complaint refers to the gantry crane that is the subject of this Referral Case Number ABP-309964-21
- Page 29 Photo of a tractor. Don't know the significance of this.
- Page 30 Photo of a tractor, that Mr. McEvoy says came from Booth Concrete at 19.18, our authorized closing time is 20.00, and so if this came from the plant, I don't understand the problem.
- Page 31 Two photos of mixer drums from 2003. Don't know the context except it states that Booth Concrete and Laois County Council improved the road.
- Page 32 There are photos of a lorry carrying lightweight concrete flooring. Mr. McEvoy seems to suggest this is dangerous and
& 35 and unsecured load. He fails to appreciate that this product was made from lightweight concrete and is secured by the Crane compressing the load downwards.
- Page 33/34 Photo of a truck and a tractor on 15/05/21.

35/36 Don't know what the significance of this is.

Page 42-87 Unable to read the writing, but it appears to be a list of vehicles passing Mr. McEvoy's house?
As this is a public road, many of the vehicles are not related to the Company. No registration numbers noted.
Mr. McEvoy appears to have a camera on the public road which is disturbing in relation to GDPR regulations.

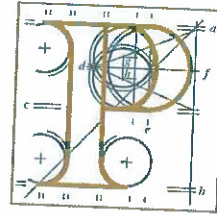

As is evident from the foregoing, for many years, Mr. McEvoy has done anything he could to prevent the company from carrying out its business.

Yours faithfully,

PETER BOOTH
MANAGING DIRECTOR

Re: Whether the use of an outdoor gantry loading crane is or is not development or is or is not exempted development.
Booth Precast Limited, Ballymullen, Abbeyleix, Co. Laois.

Dear Sir / Madam,

I have been asked by An Bord Pleanála to refer to the above-mentioned referral.

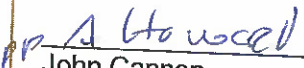

The Board is of opinion that, in the particular circumstances of this referral, it is appropriate in the interests of justice to request you to make submissions or observations in relation to the enclosed observations from Tom McEvoy and Michael and Mary Whelan.

In accordance with section 131 of the Planning and Development Act, 2000, (as amended), you are requested to make any submissions or observations that you may have in relation to this enclosure on or before 17th June, 2021. The Board cannot consider comments that are outside the scope of the matter in question. Your submission in response to this notice must be received by the Board not later than 5.30 p.m. on the date specified above.

If no submission or observation is received before the end of the specified period the Board will proceed to determine the referral without further notice to you, in accordance with section 133 of the 2000 Act, (as amended).

Please quote the above referral number in any further correspondence.

Yours faithfully,

John Cannon

Re: Planning Application Reference Number: Re: 309964: Booth Precast Limited, Ballymullen, Abbeyleix, Co. Laois.

Applicant: Booth Concrete

A Chara,

I refer to the above planning application & wish to make the following submission / objection in relation to the proposed development.

I wish to object to the proposed development based on the points outlined below:

- Main objection is that the road in which Booth Concrete will be travelling on is not suitable for HGV vehicles as it stands there is barely room to get past another car on this road in parts.
- The Road is slowly deteriorating everyday as a result of HGV vehicles currently going to and from Booth Concretes existing business at Ballymullen.
- The current traffic in and out past our property is excessive every day and at all hours by Booth Concrete and as a result we would have major concerns of anymore planning being granted as the volume of traffic will no doubt double or treble from what it currently is.
- The current HGV are flying up and down the road each day with a speed limit of 80km with no stop sign at the junction of our road.
- The HGV currently show no consideration for residents driving on this road they presume they have control of the road even on narrow sections they do not slow down making drivers pull into the ditch just to avoid an accident.
- Our personal concern is for the safety of our kids due to the speed of these HGV past our home on a daily basis specifically as we have a 15year old boy with Autism who is non-verbal and would not have the road sense to not run across the road if he were to get out of the garden. We have a gate which we lock to protect him but that is not to say anyone calling would not leave the gate unlocked and he would be gone and given the current volume and speed of Booth Concrete HGV past our property we have serious safety concerns as such we strongly object to anymore planning or retention of planning being granted to Booth Concrete for the Application

Mary & Michael Whelan

Re: 309964: Booth Precast Limited, Ballymullen, Abbeyleix, Co. Laois. (105)

Laois County Council

Description

Whether the use of an outdoor gantry loading crane is or is not development or is or is not exempted development.

- Booth Precast Limited (1st party Referrer)

A Chara

I am writing in relation to the above, my reason is the Intensification that there is already 200+ Trucks passing my home from 5am in the morning till all hours at night, 7 days a week. I have a high court order which States hours Booth Concrete are allowed to operate 8am – 6pm Monday to Saturday ,with no work on a Sunday which you will see from the traffic count (ex for 2 days) that this is not the case.

This is an unauthorised development and now they are looking to retain planning on the Gantry and they already have one and had no planning for this either. This is supposed to be a Business premises not an industrial estate as it is now. Ref 95/300 it is supposed to be a sand pit only not industrial units. They also have two batching plant built and these do not have planning permission, it needs planning as it is supplying Booth Precast with Sand & Gravel.

Unauthorised Developments:

The Following are all UD and allowed to operate:

Sean Wilson – Ballyragget Ref: ENF2005
Days Pitt - Booths UD 13/81 and UD19/24
Padder Burke - UD 16/40
Odlum's - UD 20/12
J.Harris - UD 20/11

3

Kwik Precast - UD20/14
Tentore - UD19/19
Maher UD 16/154 (now closed)
Dooly's UD 14/56 (no longer draws)
Working from Booths: UD 02/15
UD 09/191
UD 14/97
UD 15/90

Laois Scaffolding working from Booths - UD 20/14 plus numerous others.

I am very aware that Booth Concrete does not have a discharge licence and are pumping waste into rivers.

From Jan 2020 Booths have been drawn from Sean Wilson in Ballyragget inside SAC - reported to Kilkenny County Council and nothing was done by Kilkenny County Council.

I reported Hazard waste in the past to LCC and I got no reply.

None of the above have on EIS. *OR EIA*

I am aware of BC bursting the water supply in Days Pitt Abbeyleix on two occasions and I have reported an overturned Track Digger. *IN DAYS NO EIA EIS & NO PLANNING*

I had a high court order against BC which they do not adhere to. I took multiple cases against Booth Precast and I won all cases but as yet I have not received the 370k that I was awarded from the ~~Solicitor~~. *Booth's*

No. 2 The Parent and Connected Development:

In spite of there being No visible site notice Laois County Council granted permission for reference 12/46 on the 8th of May 2012. I attach correspondence regarding the validation of the site notice (attached as appendix 3), it should be noted that development consent was never granted for this development.

Previous to this, Planning ref; 10/290, permission was granted on appeal by An Bord Pleanala ref: PL11.239204 on the 2nd of November 2011.

The Ballymullen site has been extended in several directions in recent years, the main ones are marked on the map in appendix 1. The consequences and implications will have to be taken into account before this can be considered to be a valid application for 20/7

- Shale Quarrying (major intensification going on in last month) *INCREASED by 8 ACRES*
- The Ballymullen development was extended to Ballymullen Farm ref UD20/11
- The quarry was then extended down the road where they removed a small plantation.
- In 2013 a scaffolding hire service started operating on and from the site without planning permission.

I attach a copy of the unauthorized development form for these unauthorized developments which I submit with this objection. (attached in appendix 2)

The Planning authority are obliged to consider the effects of the increased traffic passing my home including the increased damage caused by placing a footpath on the opposite of the road from my home, forcing this heavy traffic closer to my home which has increased the impact and structural damage being caused to my boundary wall and to my home.

No. 3 History of the Ballymullen site:

The parent development is best described as a concrete block and precast concrete manufacturing plant which has now been intensified to include shale quarrying.

'In brief Mr. Phil Butler sold concrete batching plant to Arastra – this is confirmed Aidan O'Connell's letter of the 15th of December 2004 to Laois County Council, which goes on to state:

'the extraction of sand and gravel is exclusively Butlers, none by Arastra, **the material is not suitable for concrete manufacturing**'

Mr. Phil Butler passed away in April 2005. In 2006 Mrs. Kay Butler sold a disused Quarry with a license to Booth Concrete.

Since 2001- Current date all the majority of truck movements relate to Booth Ready-mix, Precast and Blocks, which require input of raw materials into Ballymullen since there is not suitable on site.

Booth Concrete started the Precast Concrete business in 1994 in Bland's.

Kwik Precast started approx. 4 years ago manufacturing concrete columns and there is another company manufacturing Breton slabs and concrete in 2018.

In 1994 Arastra Construction (Booth Concrete) moved to Bland's of Blandsfort.

Since 2001 Booth Concrete started in Ballymullen, Abbeyleix, and drew all their material from Bland's and other Quarries UD.

Booths supply all concrete related material to all companies on site, all coming from unauthorized developments. Approx. 1000 tonne per day going onto Ballymullen site for processing.

I have a high court order which is being ignored by Booth Concrete.

No. 4 Planning History of the sand and gravel abstraction:

The first application for is dated 15th May 1995 was on an area of 4.515 HA. Condition no.26 was for a plan to reinstate the lands. Mr. Phil Butler obtained planning permission under planning register reference 95/300 on the 2nd of September 1996 which granted planning permission for the development of land namely 'to **retain** concrete plant, extraction of sand and grand and washing facility at Ballymullen House, Ballymullen, Abbeyleix subject to 31 conditions.

Conclusion 1. No assessment of the Impact on the SAC site code 2126:

No assessment in compliance with Article 3 of the EIA directive has ever been carried out for this development (see case C-50/09). Retention permission is not available for developments that have commenced before an application for development consent has been made and approved C-215/06.

Conclusion 2. No Enforcement:

It has always been the position of the planning authorities in respect of this site that it should be reconstituted once quarrying had ceased but conditions 1,2,3,5,15 and 26 of 95/300 and condition no.11 of register reference 98/780 are not being complied with and the Planning authority are not enforcing them.

No. 5 Location of the Ballymullen site:

The development site is Adjacent to Abbeyleix Bog otherwise known as Killamuck Bog, covering an area of 109 HA and which contains three Annex 1 habitats but has not been officially designated. (Grid reference 2433700 / 182600) *. The site is drained by a natural drain between the bog to the west and a man-made drain to the east both of which are connected to the River Nore site code 216.

I have also enclosed some photographs which have dates of out of hour working and also of some dangerous loads. You have to appreciate that there are families living along this stretch of road and the number of trucks going in and out of Booth Concrete is massive and with dangerous loads and narrow roads it's an accident waiting to happen.

Conclusion:

The bottom line a Major Industrial Unit Built with the Infor structure to carry 2 10 foot Gantry for the benefit of Booth Precast and Kwik Precast, The overall Hight and Length and Width is hugh.

Kind Regards
Eam McLucy

P.S. If you need CCTV footage of traffic movements
CCTV Please let me know

Hi Angela,

I was just checking for another email and saw this email, I visited the site one week after the application was submitted (as Jason Redmond said site notice was continually been taking down by a third party) and took photographs of the site notice which was in place. I have copy of the photographs on my camera and will furnish you with same on my return. My no. is [REDACTED] if you want to ring me.

Regards,
James.

Mr ADMINISTRATIVE OFFICER, PLANNING

Date: 08/05/2012

It should be noted that an outline permission is a permission subject to the subsequent approval of the Planning Authority and that until such approval has been obtained to detailed plans of the development proposed, the development is NOT AUTHORISED.

NOTE:

The permission herein granted shall, on the expiration of the period of 5 years beginning on the date of the granting of permission, cease to have effect as regards:-

1. In case the development to which the permission relates is not commenced during the period, the entire development and
2. In case such development is so commenced, so much thereof as is not completed within that period.

YOU ARE ADVISED TO CHECK WITH LAOIS COUNTY COUNCIL AND OTHER STATUTORY BODIES SUCH AS E.S.B., EIRCOM, ETC., IN RELATION TO THE LOCATION OF ANY UNDERGROUND SERVICES BEFORE DEVELOPMENT COMMENCES.

SCHEDULE 1

Having regard to the provisions of the County Development Plan 2011-17, it is considered that, subject to compliance with the conditions set out in the Second Schedule, the proposed development would not seriously injure the amenities of the area, would not be prejudicial to public health, would be acceptable in terms of traffic safety and would be in accordance with the proper planning and sustainable development of the area.

CONDITIONS

1. The development shall be carried out in accordance with plans and particulars received by the Planning Authority on 7th of February, 2012, except where conditions hereunder specify otherwise.

Reason: In the interest of proper planning and sustainable development.

2. Hours of operation shall be confined to between the hours 7am - 8pm Monday to Friday and 7am - 6pm on Saturday unless a further permission is granted for operation outside these hours by the Planning Authority.

Reason: To protect the amenity of property in the vicinity.

Respondents

Terms to be handed into Court

1. The First, Second and Third Named Respondents, undertake to limit the number of HGV vehicle movements either entering or exiting the site at Ballymullen Concrete Works, Ballymullen House, Ballymullen Road, Abbeyfeix, Co. Laois to 60 movements per day laden or unladen (30 HGV Loads) same to be calculated on a weekly basis. The First Second and Third Named Respondents, undertake that the said vehicle movements will be recorded in accordance with Condition 6 of planning permission 06/24.
2. The first second and third named Respondents undertake to limit the hours of operation of the Ballymullen Site to between 8.00am and 18.00pm Monday to Saturday in accordance with the planning permission.
3. The First and Second Named Respondent their servants and or agents, will apply for planning permission within 6 months in respect of any unauthorised structures on the site. The Applicant will have liberty to apply solely in respect of same and after that time but same is without prejudice to the Respondents contentions that (a) the Applicant has no genuine interest in such structures (b) that the structures are covered by the existing planning permissions and (c) that the structures are not amenable to enforcement.
4. The first second and third Respondents undertake to clean the road leading past the Applicants house on a monthly basis to comply with condition 29 of planning permission 1995/300.

5. The undertakings at 1 and 2 above will take effect in four months on the 16th April 2010.
6. The undertakings are given subject to any future planning permissions which are obtained by the Respondents in respect of the site.
7. The proceedings to be struck out with an order requiring the first second and third respondents to pay the costs of the proceeding including discovery and all reserved costs to be taxed in default of agreement.

Booth's tried to set me up - I was never there A 8PM & never owned a flash camera

Judge dismisses case due to lack of concrete evidence

Niall Murphy and Nian

AN Abbeyleix man who took photographs of the comings and goings at a local concrete plant to ensure the company was in compliance with High Court orders had a public order case dismissed against him when he appeared at Portlaoise District Court last Thursday.

Tom McEvoy (54) with an address at Ballymullen, Abbeyleix contested that on 16 April 2010 at Ballymullen, Abbeyleix he engaged in threatening, abusive and insulting behaviour.

Taking the stand, Michael Carroll said in his sworn evidence that he worked as a fitter with Booth Concrete at Ballymullen for the past

11 years. He said that at about 7.55am that morning, while waiting for the gates of the plant to open, "a man with a big camera took photos of me. I knew him as Tom McEvoy. I don't like anyone taking photos of me. He said nothing to me. I knew him from just passing down the road. He's always looking at you."

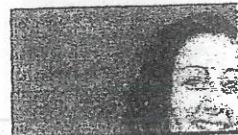

Mr Carroll told the court that Mr McEvoy was standing by his own car pointing the camera towards him. He stated; "I was wondering why he was taking photos. What his problem was? He does be hiding in the ditches across the road in the field taking photos

as well." Junior counsel for Mr McEvoy, Julie Gillane, instructed by solicitor Marie McGee from Sheridan/Quinn solicitors, said that Mr Carroll was a very loyal employee to the company and that his employer was in court.

She asked Mr Carroll if he was aware that a High Court order had been made limiting the number of trucks using the concrete facility on a daily basis. She asked him since the order was imposed had production decreased or his wages decreased. Mr Carroll agreed there had been a decrease in production and a decrease in his income.

Hearing t

Booth Concrete, Ballymullen, Abbeyfeich

Next to take the stand was plant manager Neil Hanlon who, in his sworn evidence, said he has worked with Booth Concrete for the past six years.

Mr Hanlon said that on the same evening at about 6pm as he was leaving the yard and locking the gates he saw Mr McEvoy nearby

sitting in his car. He said Mr McEvoy "stepped out, came over to me and said, here shake my hand, shake my hand. I saw a video recorder on his dashboard and shook his hand. I told him I didn't want him coming near me any more. He told me the video camera was dead."

Mr Hanlon added: "I'm only going in to do a day's work and I can do without this. He's had an ongoing dispute with Booth Concrete. As far as I'm concerned, I should be left alone. I'd rather have nothing to do with the man."

Ms Gillane asked Mr Hanlon whether he, too, considered himself to be a loyal employee of the company. She asked him if knew that the High Court order placed a limit of 50 lorries at the plant per day and allows it to operate from 8am to 5pm daily between 1st April and 31st March 2011.

Mr Hanlon said: "I wouldn't say it operated 24 hours a day." Mr Hanlon agreed with Ms Gillane that along with the downturn in the construction industry, coupled with the restricted trading hours, that his salary had "possibly" been affected.

Ms Gillane then asked Mr Hanlon: "Did you gesture or make any facial expressions towards Mr McEvoy?"

"No," replied Mr Hanlon. "He (Mr McEvoy) put on a big silly or 'hat' hat and said 'come on shake my hand.'"

Ms Gillane then said the court that the High Court order had come into effect on 13 April "the same day as this prosecution."

Sgt Sean Malone told the court that on the day he attended the scene, where he met with Mr McEvoy who was sitting in his car. He said that Mr McEvoy told him that he was there on the day "to have a look at the plant in relation to the High Court order."

Sgt Malone then said: "I had no reason to arrest him."

Garda Cathal Hurley, in his evidence, said that he had been in the area in the company of another garda on the day. He said:

"I saw a man in a hedge in a rural area. I called him over and he told me he was a High Court order breaker and that he was there to ensure that Booth Concrete was in breach of the order."

Ms Gillane asked Mr Hanlon if he was aware of the High Court order. She said: "I saw Mr McEvoy in the yard of Booth, one of the owners of the company, there into the plant."

Judge Catherine Keane ruled on the case.

She said: "There is absolutely no evidence of any offence taking place in this case. I don't believe any breach of the peace took place. The first witness (Mr Carroll) said that Mr McEvoy had

no reason to arrest him. I see no reason to arrest Mr McEvoy. The second witness (Sgt Malone) said that Mr McEvoy was there on the day "to have a look at the plant in relation to the High Court order."

800 677 247
 aring.com

Sgt Malone said Mr McEvoy was parked in a public place on a public road & he told me so.

Clean-up of site containing hazardous asbestos begins

BY JOE BARRETT

THE clean-up of the old Midland Dairies site on the Mountrath Road in Portlaoise containing hazardous asbestos began on Monday.

Two weeks ago, the Laois Nationalist revealed that the owners of the site, Pat, Peter and John Booth, trading as Booth Partnership, had been served with notice from Laois Co Council to clean up their site or face up to ten years in jail or/ and a maximum fine of €15 million.

Two of the company's directors and a specialist company from Kildare, Environmental Waste Technologies Limited, which deals with hazardous waste including asbestos, were on site on Monday. A number of workers wore protective clothing, hard hats and breathing masks during the clean-up operation.

The man who claimed he had been raising the issue of asbestos on the site for over seven years with the relevant authorities and local councillors, but had got very little response to his

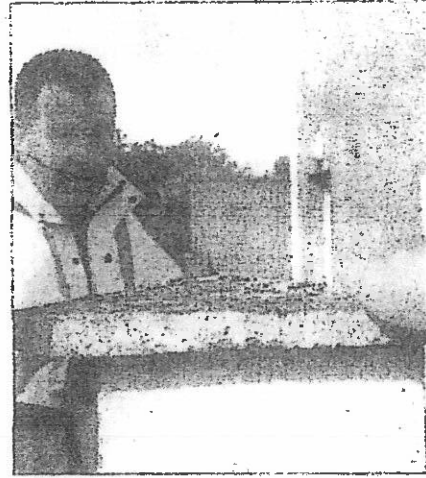

concerns, Tom McEvoy, was also on hand surveying the clean-up work.

Mr McEvoy had described the site as a "ticking time bomb" with "lethal asbestos mixed in with rubble."

The company said it had previously cleaned up the site and had disposed of low grade asbestos sheeting that had been on it. They said they had inspected the site recently with representatives from an accredited asbestos waste disposal company and found "material was planted on site by someone."

The company asserted "there is no health hazard arising from this site," and gave an undertaking that the works would be carried out by the end of this month in accordance with Laois Co Council's instructions.

On Monday our photographer Luke O'Brien, while taking photographs of the ongoing work, said: "There was a frank exchange of views between one of the company's directors and Mr McEvoy."

Photographer Luke O'Brien pictured Peter Booth (left) and Tom McEvoy during the clean-up operations of a hazardous site at the old Midland Dairies site on the Portlaoise, on Monday afternoon

Laois County Council Registration of Planning Complaint

Please note:

Before you complete this form carefully consider the notes no. 1-8 overleaf. It is important that as much information as possible is given so that a proper assessment of the complaint may be made. Any additional relevant information should be included on the reverse of this form

(TO BE COMPLETED IN BLOCK CAPITALS)

Location of development:
& /or Co-ordinates)

As you are driving into Beeth Concrete approx 1/2 km in you will see the QUARRY on your left hand side it wide open

Details of nature and extent of development:

QUARRY'S Expansion of sand & gravel approx 7 acres

Name and address of owner/occupier of property:

James HARRIS Ballymullen House

Abbeyleix Co Laois

Name and address of developer (if known):

Beeth Precast Ballymullen Abbeyleix

OR PRASTRA Construction Ballymullen Abbeyleix

How long has the development been in existence:

January 2019 & Expanded MAY 20

Date of commencement of development/use (if known):

Has planning permission been obtained or applied for:

YES NO

If court proceedings are necessary, are you willing to swear an affidavit/statement/give evidence in court on behalf of the Council:

YES NO

Planning Reference No. (if known)

None 95/300

Important Notes:

- All questions **must** be answered in full.
- The form **must** be signed and the name and address of the complainant given, otherwise the complaint will **NOT** be investigated.
- Please **clearly** indicate the location of the development in question. It would be helpful if a site location map identifying the site could be submitted. If the site of an alleged unauthorised development cannot be located the complaint will not be investigated.
- The Planning Authority do not investigate matters of a civil nature, such as those relating to private rights way, encroachment, trespass, nuisance, boundary disputes etc.

20

5. Before making a complaint, you should try to ensure that the matter relates to Planning. Certain matters such as complaints relating to roads, parking, waste, litter, water, drainage, pollution, housing and dangerous structures may be within the remit of other Council departments, and should be referred to same.
6. Freedom Of Information Act 2014 - Complaints regarding issues associated with planning enforcement constitute part of Laois County Council's records for the purpose of the Act. Laois County Council will endeavour to maintain as confidential any complaints made to it in confidence and in good faith. Laois County Council cannot, however, give absolute guarantees as the decisions made by the Council in relation to requests under the freedom of Information Act can be appealed by the requestors to the Office of the Information Commissioner. Please complete confidentiality section below.
7. The Planning and Development Act 2000 places statutory time limits on the taking of Enforcement Action by the Council. Therefore should legal proceedings be instituted in this matter, the person making the complaint may be required to give evidence in court/swear an affidavit/swear a statement as to the date of commencement of the unauthorised development. If this evidence is not forthcoming the Council may not be able to fully deal with the complaint.
8. Please append any other relevant information: sketches, photographs, letters, location map.

Additional Information: White & Black thorn Hedges were torn down. ESB poles were pulled down, a lot of water seeped into New Ross from near by river. The Quarry remains on same HADDA land. Both concrete frames parted the road to these plant by ledge & May. Decem. track digger was working in Quarry - The Quarry is on left side as you are driving in to Ballymullen. Approx 7 acres in size.

Confidentiality: Please note that your complaint will be a record of Laois County Council and as such may be liable to an enquiry by any member of the public under the provisions of the Freedom of Information Act. The Act, however, provides that such a record may be exempt from disclosure/access, or made accessible only after consultation with you, the complainant.

In this regard I _____ request Laois County Council not to disclose my identity or any other information relating to me in its investigation of this matter.

This information is given to Laois County Council in confidence and on the understanding that it be treated as confidential. I am aware of the provisions of the Freedom of Information Act and the contents of Note 6 above

A registration of planning complaint will not be investigated unless Name & Address are given and form is signed.
